

m\_display::len\_f\_cplx

m\_display::len\_s\_cplx

m\_display::len\_f\_sngl

```
graph LR; A[m_display::len_f_cplx] --> C[m_display::len_f_sngl]; B[m_display::len_s_cplx] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two boxes stacked vertically. The top box contains the text 'm\_display::len\_f\_cplx' and the bottom box contains 'm\_display::len\_s\_cplx'. Both boxes have black borders and white backgrounds. On the right, there is a single box containing the text 'm\_display::len\_f\_sngl'. This box has a black border and a light gray background. Two blue arrows point from the right side of the left boxes to the left side of the right box. The top arrow originates from the right side of the 'm\_display::len\_f\_cplx' box, and the bottom arrow originates from the right side of the 'm\_display::len\_s\_cplx' box.
