

m_display::disp_set

m_display::disp_set_ds

m_display__util::check
_settings

```
graph LR; A[m_display::disp_set] --> C[m_display__util::check_settings]; B[m_display::disp_set_ds] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, two white rectangular boxes with black borders contain the text 'm_display::disp_set' (top) and 'm_display::disp_set_ds' (bottom). On the right, a larger gray rectangular box with a black border contains the text 'm_display__util::check_settings' on two lines. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'm_display::disp_set' and 'm_display::disp_set_ds' call or depend on 'm_display__util::check_settings'.
